ISEEIE 2022

2022 International Symposium on Electrical, Electronics and Information Engineering (ISEEIE 2022) aims to bring together Electrical Engineers, Electronics Engineers, and Information Engineers in a single platform and present their stimulating research and knowledge transfer ideas in the Electrical, Electronics and Information Engineering. However, we also recognize that the future for engineers is one where they will be working in interdisciplinary teams to solve new, complex, and evolving problems that will require innovative solutions. Therefore, we encourage the participation of other disciplines in this conference where multidisciplinary research and knowledge transfer projects are presented.

ECCSIT 2021

2022 European Conference on Computer Science and Information Technology (ECCSIT 20222) will be held in Budapest, Hungary during September 16-18, 2022. The conference is dedicated to providing the platform and opportunities for researchers, scientists, engineers and scholars to exchange and share their experiences, new ideas and research in the common research field of Computer Science and Information Technology, and to discuss practical issues, the challenges encountered as well as the solutions adopted.

Conference Date: September 16-18, 2022
Conference Location: Budapest, Hungary
