VOLUME APRIL

CO-EXISTENCE

SUSTAINABLE
DEVELOPMENT

The International Association of Electrical,
Electronic and Energy Engineering

Upcoming Conference

COEEB 2022

The development of environmental engineering technology and biotechnology has brought great benefits to address global grand challenges in terms of the renewable energy transition, soil and water conservation and desertification control, climate change and global warming.

CoEEB 2022 will build a bridge for all the participants to have spirited discussions and exchange insightful thoughts on the broad field of environmental engineering and biotechnology.

2022 International Joint Conference on
Environmental Engineering and
Biotechnology
Stockholm, Sweden
June 24-26, 2022

The International Association of Electrical, Electronic and Energy Engineering

UPCOMING CONFERENCE

COEEE 2022

Energy and environmental engineering contribute immensely to grand challenges and are important to the economic and ecological sustainability of the world.

CoEEE 2022 will provide the best platform for all the participants to have spirited discussions and exchange insightful thoughts on the broad field of energy and environmental engineering.

**2022 International Joint
Conference on Energy and
Environmental Engineering**

**Stockholm, Sweden
June 24-26, 2022**
