GREEN BUILDING

Vol. May 2022-2023

Presented by IAEEEE

Upcoming Conference

ICoGB 2022

Virtual Conference | June 24-26, 2022

2022 International Conference on Green Building

With researchers, scientists, engineers and scholars as its contributors, ICoGB presents an open forum aiming to raise green building awareness, spur the standards and develop practical solutions for sustainable buildings by engaging the public, the industry and the government in the world.

The ICoGB 2022 conference committee is excited to invite professionals and scholars from all over the world to participate in this significant conference, to enhance our knowledge and create new knowledge to help promote the advances and changes of the joint academic researches.

Keynote Speaker

Prof. Jian Kang

University College London

Green buildings preserve precious natural resources and improve our quality of life. Acoustics deals with sound waves in gases, liquids, and solids and its application is present in almost all aspects of modern society, from both a physical and human perspective.
