Introduction

The 2023 International Conference on Network and Information Security (NISecurity 2023) will be held on October 13-15, 2023 in Hangzhou, China.

The development of information and networking technology has generated great benefits to the life of human being. Information and networking security is an important technique to protect information systems and networks from various malicious cyber-attacks. Information security has been investigated for a quite long period with huge research results, while the security of emerging information systems needs to be further studied. The security of communication networks is another research focus due to the real-time nature of the networks and the development of emerging wired and wireless networks.

The objective of this conference is to provide a platform and opportunities for researchers, scientists, scholars and engineers to exchange their research experiences and share new ideas to promote their research progresses in the field of Network and Information Security with the discussion on practical issues, challenges encountered as well as solutions adopted.

Conference Chairs

Ruimin Hu
Xidian University
China

Maode Ma
Nanyang Technologial University
Singapore

Conference Co-Chairs

Chungen Xu
Nanjing University of Science and Technology
China

Zhiyong Zhang
Henan University of Science and Technology
China

Thomas Chen
University of London
UK

2023 2nd International Conference on Cyber Security

CSW 2023

Introduction

2023 2nd International Conference on Cyber Security will be held in Hangzhou, China on October 13-15, 2023. Organized by Hangzhou Dianzi University, the conference aims at providing a unique platform for leading scientists, researchers, students and practitioners from both academia and industry in global scientific communities that focus on cyber security. At the conference, the cutting-edge technologies, latest research results will be presented and shared, also, future innovations and collaborations will be stimulated through communication and discussion. CSW 2023 offers opportunities of participation to exchange experiences and explore future trends in the area of cyber security.

The conference program consists of registration, keynote sessions, invited talks, oral sessions, poster sessions and social activities.

Conference Chairs

Jianwu Zhang
Hangzhou Dianzi University
China

Zheng Yan
Xidian University
China

Liqun Chen
University of Surrey
UK

Program Chairs

Jiankun Hu
The University of New South Wales
Australia

Zahir Tari
RMIT University
Australia
