CoEEE 2025

It is our great pleasure to warmly invite you to the **2025 5th International Joint Conference on Energy and Environmental Engineering (CoEEE 2025)**, which will be held in **Budapest, Hungary** during **July 25-27, 2025**. The conference is dedicated to providing the platform and opportunities for researchers, scientists, engineers and scholars to exchange and share their experiences, new ideas and research in the common research field of Energy and Environmental Engineering, and to discuss practical issues, the challenges encountered as well as the solutions adopted.

**ENERGY AND
ENVIRONMENTAL
ENGINEERING**

CoEEE 2025

2025 5TH INTERNATIONAL JOINT CONFERENCE ON ENERGY AND ENVIRONMENTAL ENGINEERING

Conference Introduction

Energy security, environmental degradation, soil & water loss, and climate change are the current and future grand challenges of the world. Energy and environmental engineering contribute immensely to these grand challenges and are important to the economic and ecological sustainability of the world. While the public has established the local-realism-based vision that the new energies (solar & wind power, biofuel, carbon capture and storage, etc.) and environmental engineering technologies (ecological restoration, wetlands, water & soil reservation, wastewater and sludge treatment, desalination, etc.) may be beneficial for resource conservation and climate change mitigation, the far-reaching ecological impact of these engineering projects to the environment is little explored.

Welcome to CoEEE 2025

We recognize that the future for energy and environmental scientists is one where they will be working in interdisciplinary teams, especially in partnership with social scientists, to solve new, complex and evolving problems that will require innovative solutions. Therefore, we strongly encourage participation of interdisciplinary disciplines (such as social hydrology, energy and environmental policy, ecological economics, systems embodiment analysis, etc.) in this conference where multidisciplinary researches are presented.

CoEEE 2025 will be held in the beautiful city of Budapest, in spring, which is the wonderful season in Hungary. The conference will start with the registration and material collection on July 25, 2025, followed by two days of technical sessions consisting of plenary lectures and keynote speeches to overall audience and oral presentations and poster presentations by participants in various sessions as well as social networking events.

We truly believe that CoEEE 2025 will provide the best platform for all the participants to have spirited discussions and exchange insightful thoughts on the broad field of energy and environmental engineering. Finally, we do wish all of you to have a memorable experience on the conference and seize this opportunity to promote future international collaborations.

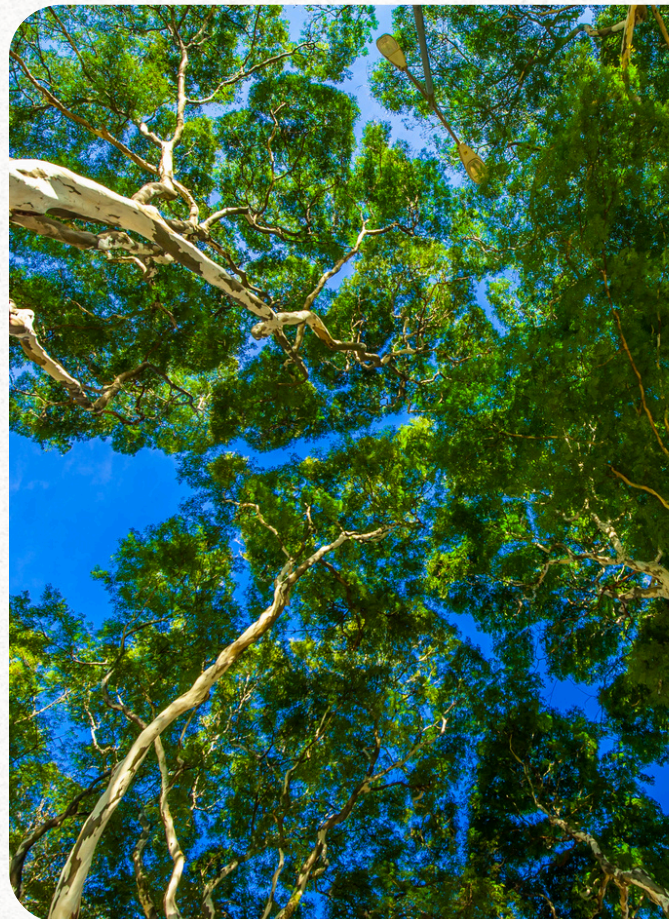

CALL FOR PAPERS

- Air emission trading
- Air pollution and control
- Bio-engineering
- Biodegradation of hazardous substances
- Carbon capture and storage
- Climate and climatic changes
- Disinfection and disinfection by-products
- Emission sources
- Environmental dynamics
- Resource management
- Soil decontamination
- Solid waste management
- Storage technology
- Sustainability in process industries
- Trans-boundary cooperation
- Waste minimization
- Waste valorization
- Water quality
- Energy Engineering
- Eco-technology
- Economic instruments
- Energy efficient systems
- Energy stock-exchanges
- Remote area power supply
- Sustainable energy and environment

www.coeee.org/cfp

SPECIAL SESSIONS

- Special Session I - Air Pollution Control
- Special Session II - Water Quality Biosafety
- Special Session III - Environmental Catalysis
- Special Session IV - Synergistic Reduction of Industrial Carbon and Pollution
- Special Session V - Water Pollution Control and Resource Recovery

CoEEE 2025

ENERGY AND ENVIRONMENTAL ENGINEERING

BUDAPEST, HUNGARY

JULY 25-27, 2025

SUBMISSION NOTES

1. Manuscripts submitted to the conference should be written in English only.
2. Manuscripts submitted to the conference should follow the template provided: Full Paper Template, Abstract Template
3. Manuscripts can be submitted in Doc, Docx and PDF format.
4. Oral or Poster presentations should be nominated while submitting an abstract.
5. The ordinary length is suggested no less than 5 pages, including all figures, tables, references, and appendices. If the paper exceeds 6 pages, the additional pages will be charged at the time of registration.

SUBMISSION SYSTEM

<https://cmt3.research.microsoft.com/CoEEE2025>

Abstract Submission: March 10, 2025

Full Paper Submission: March 25, 2025

Notification: April 25, 2025

Registration: June 10, 2025

Main Conference: July 25-27, 2025
